

TURNING ISLAND WASTE INTO WAVES OF CHANGE

ReBoat on the Move: Highlights
from recent events

Over the past months, the ReBoat project has actively participated in several key events across Europe, engaging with stakeholders, showcasing its innovative approach to circular economy for islands, and building momentum for the implementation of its pilot activities. From launching the project at the official Kick-off Meeting to presenting it at major forums and sustainability events, ReBoat has been steadily strengthening its presence and fostering dialogue around sustainable island development.

Kick-off Meeting – Milan, January 2024

The ReBoat project officially launched with a two-day Kick-off Meeting in Milan, bringing together all consortium partners to set the foundations for implementation. The meeting focused on aligning objectives, planning initial actions, and

DATAMITE Project Meetup – Athens, February 2025

ReBoat was presented by ICCS/NTUA at the DATAMITE Project Meetup, held at OTE's IT Innovation Center. The event served as a vibrant platform to

establishing the governance and communication frameworks that will guide the project through its pilot and outreach phases. More information is available [here](#).

bring together researchers and industry professionals involved in EU-funded projects for insightful discussions, networking, and collaboration. More information is available [here](#).

Elafonisos Eco Week – Elafonisos, April 2025

As part of the Elafonisos Eco Week, ReBoat contributed to a series of thematic sessions led by the CEO of our partner

Circle the Med Forum – Athens, June 2025

ReBoat was presented by Greening the Islands Foundation (GTI) CEO during a session on circular solutions for islands, highlighting upcoming pilot activities, while partners R2M Solution and EPLO European Public Law Organization represented the project at the exhibition area, engaging with

Greening the Islands Foundation (GTI) on waste reuse, water management, and sustainable tourism. These discussions spotlighted ReBoat's integrated approach to circular innovation in island settings and its potential to support eco-tourism models that balance environmental sustainability with local economic resilience. More information is available [here](#).

stakeholders and showcasing the mobile plant concept. More information is available [here](#).
